

Ninja Star Double

INSTALLATION STEPS

Modern appearance, stable quality, practicability & multiformity

1. The roll is 25" wide 36" to 84" high.

2. The case should contain a base unit, a telescopic pole and 4 beams.

3. Remove the plastic end caps from the upper and bottom beams.

4. Swing open the beam's locking lip in order to attach the top & bottom edge of the banner. (Make sure the front of the banner is on the same side as the lip).

5. Slide the top banner edge under the lip. (if should go in about 3/8" or 1 cm) and close the lip to secure the banner. (same process for the bottom beam)

6. Unfold the base unit, as the pic. Showing.

7. Extend the top part from the telescopic pole.

8. Tighten the whole pole to the base unit.

9. The hook at the top of the pole slips into the rear slot of the banner beam. The arrow on the beam indicates the centre. Meanwhile catching the bottom beam to the down plastic part of the pole. (same process for another side).
